

LUCAS OIL PRODUCTS, INC. PRODUCT DATA SHEET

METAL POLISH

Lucas Oil Metal Polish is a solvent-based formulation that uses micro abrasives and polishing compounds to clean, polish, and protect all metal surfaces including chrome, aluminum, steel, copper, brass, and other metals. It restores metals to showroom shine, removing oxidation and oily stains from all trim, wheel, and bumper surfaces. Lucas Oil Metal Polish removes tarnish and dirt and slows dulling and corrosion to keep your car, boat, or bike show ready. Lucas Oil Metal Polish works around the garage, home, or shop, to keep all metal surfaces in like new condition, and is great for restoring antiques or maintaining shine and luster on metal surfaces around the home.

Lucas Oil Metal Polish is also a great tumbling media additive for restoring shine and cleaning all sorts of materials including ammunition shell casings, coins, rocks and gems, and helps to reduce tumbling time by up to half.

PART NUMBER AND SIZE:

10155 - 16 Ounce (Case of 12)

FEATURES AND BENEFITS:

- Polishes and cleans all metals (Aluminum, chrome, magnesium, stainless steel, silver, brass, gold)
- Gives maximum shine and luster with minimum effort
- Easy to use and safe for all metals
- Non-corrosive formula, contains no strong acids or ammonia
- Perfect for household, automotive, marine, motorcycle, and RV metalwork

MAIN APPLICATIONS:

Great for just about any metal surface - chrome trim, emblems, wheels, etc. Avoid use on coated surfaces. Contains a mild abrasive and should be tested in a small area before further application.

LUCAS OIL PRODUCTS, INC. PRODUCT DATA SHEET

TYPICAL PHYSICAL CHARACTERISTICS:

PROPERTIES	ASTM	TYPICAL
Appearance	Visual	Opaque white
Specific Gravity @ 60°F	D4052	0.98
Density @ 60°F, Lbs/US Gal	D4052	8.16
Flash Point, PMCC °F	D93	142
pH		6.5
Odor		Mint

These characteristics are typical of current production. However, slight variations in these characteristics may occur.
