

LUCAS OIL PRODUCTS, INC. PRODUCT DATA SHEET

SLICK MIST® SPEED WAX

Lucas Oil Slick Mist® Speed Wax is a unique speed wax formulation developed to quickly detail your car, truck, boat, and airplane, and leave your paint with a showroom shine and protective natural carnauba wax layer. Slick Mist® is used by professional vehicle detailers and racing professionals to keep all vehicles show-read, whether on the road or at the track.

Lucas Oil Slick Mist® Speed Wax is designed to be used on wet or dry surfaces, even in direct sunlight, and provides excellent UV protection and long-lasting shine. It is excellent for all vinyl wraps and decals, and helps keep mud, bugs and tar from sticking to your vehicle. It is safe for use with leather, plastic, chrome, or aluminum surfaces.

For best results, shake bottle well prior to use, apply a fine spray and wipe dry with a soft terry cloth towel, chamois or microfiber towel.

Secret tip! - Slick Mist® Speed Wax creates a water repellant film on glass surfaces such as windshields, mirrors, and windows to maintain visibility in the toughest weather. Just watch the water bead off the glass!

ATTENTION: Do not use any Slick Mist® products on floors, vehicle controls (pedals, grips, steering wheels), motorcycle seats or tire treads, bicycle seats or tire treads, brake drums and any other surfaces where slipperiness may be hazardous.

PART NUMBER AND SIZE:

10160 - 24 Ounce (Case of 12)
10160-6 - 24 Ounce (Case of 6)
10161 - 2 Ounce (Case of 20)
