

LUCAS OIL PRODUCTS, INC. PRODUCT DATA SHEET

SLICK MIST® MARINE SPEED WAX

Lucas Oil Slick Mist® Marine Speed Wax is a unique speed wax formulation developed to quickly detail your boat or personal watercraft, and leave your paint with a showroom shine and protective natural carnauba wax layer. Slick Mist® products are used by professional detailers and racing professionals to keep all equipment show-ready and well protected.

Lucas Oil Slick Mist® Marine Speed Wax is designed to be used on wet or dry surfaces, even in direct sunlight, and provides excellent UV protection and long-lasting shine. It is excellent for all vinyl wraps and decals, and helps keep mud, bugs and tar from sticking to your boat or interior finishes. It is safe for use with leather, plastic, chrome, or aluminum surfaces.

For best results, shake bottle well prior to use, apply a fine spray and wipe dry with a soft terry cloth towel, chamois or microfiber towel.

Secret tip! - Slick Mist® Marine Speed Wax creates a water repellent film on glass surfaces such as windshields, mirrors, and windows to maintain visibility in the toughest weather. Just watch the water bead off the glass!

ATTENTION: Do not use any Slick Mist® products on floors, vehicle controls (pedals, grips, steering wheels), motorcycle seats or tire treads, bicycle seats or tire treads, brake drums and any other surfaces where slipperiness may be hazardous.

PART NUMBER AND SIZE:

10980 - 24 Ounce (Case of 12)

10980-6 - 24 Ounce (Case of 6)

FEATURES AND BENEFITS:

- Premium paint gloss intensifier
